

# County of Archer COVID-19 UPDATE

July 7, 2020

As of today, Archer County has had a total of ten (10) confirmed positive cases from county residents. Any county with less than 20 positive cases has the option of not mandating or forcing people to wear facial coverings in certain situations under penalty of law.

On July 3, 2020 I opted out of this mandate by using Archer County's right to be exempted from this mandate for Archer County.

Please keep in mind, there have been sharp increases or spikes in positive cases recently, and an increase in the number of Archer residents that have been tested, so our positive case numbers may change quickly, and we will be forced to adhere to the Governor's Orders GA-29.

Until we reach that critical time, everyone, please stay at home if you can and use social distancing and sanitary guidelines to protect your family and community.

Thanks to everyone for their efforts to prevent the spread in our county.

Randy Jackson  
Archer County Judge
