

## The Texas Residential Safe Room Rebate Program

Archer County is seeking a grant to give the citizens an opportunity to receive funding assistance to install a safe room/storm shelter. The grant would be a 50/50 cost share with a \$3,000.00 max provided by the county. All safe rooms/tornado shelters must be FEMA compliant.

To be considered a FEMA approved safe room/tornado shelter, the structure must be designed and constructed to the guidelines specified in FEMA P-320. (Taking Shelter from the Storm)

Anyone wanting to participate in the grant process should contact the Archer County Emergency Management Office at 940-574-2868
